

Mid-Level Java/J2EE/jQuery Developer

OVERTURE TECHNOLOGIES

Overture is the leading provider of decisioning software solutions that enable the transparent, accurate and flexible financing processes required for today's higher education industries. Our company promotes an independent, professional work environment and employs technology experts with experience developing software and services for Fortune 500 companies.

Our biggest consumer-facing product is our **Student Loan Marketplace**:

We have an immediate opening for a **Mid-Level Java/J2EE/jQuery Developer** candidate with anywhere between 2-5 years of work experience. We are open to hiring candidates just out of college with a major Computer Science provided they demonstrate a strong academic performance. Our engineers participate in every step of the Software Development Life Cycle, and work as part of a team to build web applications using technologies that include J2EE, Hibernate, Spring and Struts 2.0.

Responsibilities:

- Write great, maintainable code based on requirements
- Work with the Quality Assurance team to resolve bugs
- Provide technical expertise to Business Analysts during the design phase of a project
- Provide support to Overture's Quality Assurance team throughout a project's QA cycle

Qualifications:

- Strong Java skills
- Experience in MVC design
- Experience with web application development (html, javascript & Java server technologies)
- Ability to quickly learn new technologies and put them to use
- Experience with Hibernate and SpringMVC technologies a plus

Perks:

- Health insurance, 401K & paid vacation
- Work closely with an innovative team who is a leader in the marketplace
- Get exposure to all parts of our organization (sales, marketing, technology, etc.)
- Informal atmosphere and casual dress code
- Office within walking distance of the Bethesda Metro Station

Strong preference will be shown to candidates with prior work experience developing web-based applications using the technologies listed above, but candidates with Java experience and strong coding fundamentals are encouraged to apply.

Candidates must submit a cover letter, resume, and salary requirements to careers@overturecorp.com

Only candidates living in the Washington Metro region will be considered.
